The Integra® XT Revision Total Ankle Replacement System is one of the first FDA cleared products indicated for revision ankle arthroplasty only. This represents a strong commitment to further advance ankle arthroplasty solutions and expand surgeon treatment options to progress the continuum of care for ankle arthritis.

Integra XT is indicated as a total ankle replacement in revision surgeries only for patients with ankle joints damaged by severe rheumatoid, post-traumatic, or degenerative arthritis. Components are intended for cemented use only.

The Integra XT System can be used to revise any commercially available primary total ankle replacement system.

**XTend** Your Total Ankle Revision Capabilities with a Less Invasive Revision Option

- **Tibial Tray**
  - 4mm Baseplate

- **Tibial Tray**
  - 10mm Baseplate
